## EASTSIDE SECONDARY SCHOOL

**Website:** <http://ess.hpedsb.on.ca/> (Note: available but still under construction)

### SPECIAL COURSES

**International Baccalaureate (IB) Program:** The IB Program is an international program designed to develop citizens who become lifelong learners through an exposure to education which stimulates their curiosity and fosters a spirit of discovery, as well as an enjoyment of learning. The IB Diploma encompasses Grades 11 and 12 students' final two years of high school. Students experience a learning environment where they are challenged to think, encouraged to discuss and collaborate. They are taught an understanding of different cultures from around the world, and are encouraged to constantly reflect on their experiences and learning. The extended essay component teaches the research and study skills universities desire. While the program is very intense, it is also exhilarating for those that crave knowledge and understanding as well as develop important life and leadership skills.

**Foundations Program:** In order to provide a challenging enrichment program that allows students to develop the knowledge and skills required to succeed in the International Baccalaureate Program and university, the Foundations Program is for students in Grades 9 and 10. Based on International Baccalaureate ideals, the program includes a holistic approach to the learner and school, as well as a global understanding fostered in the curriculum discussion.

**Academy of Sport Specialized High Skills Major (SHSM):** The Academy of Sport allows students to explore the many aspects of the business and performance of sport. The Academy is open to students in Grades 11 and 12 who are interested in pursuing a bundle of courses specifically tailored to sports performance and management, as well as earning industry accreditation in related areas. Students will be able to make important connections to both community and post-secondary destinations.

**Hockey Canada Skills Academy:** The Hockey Canada Skills Academy aims to enhance academic achievement through the motivation of establishing a balance between academics and athletics within the school system. The program maximizes arena availability during school hours thus allowing players to train throughout the year to further enhance their individual technical and tactical skills.

**Geoventure:** Geoventure is a 4-credit program designed to link the expectations of four courses together into a meaningful and authentic learning experience over a semester of study. Using outdoor skills and community involvement as a vehicle, students will be immersed in learning about themselves

as active community members. This unique opportunity will provide foundation skills for decision making and personal growth.

**Team Taught Dual Credits:** This is an opportunity for students in a senior **Transportation Technology and Foods** classes to earn a college credit while still in high school. The college instructor comes to the high school to teach and work with the secondary school teacher to deliver the curriculum. Students earn their secondary course credit and a first year college credit.

**International Student Program:** We welcome approximately 30 students to our school each year from as many as 15 different countries. This provides our students an opportunity to learn about and develop an appreciation of other cultures. International students participate in a full range of courses and extracurricular activities. Supports for students include tutorials, planned social activities, English as a Second Language courses, university preparation and regular visits from our homestay coordinator.

**In addition to Mathematics, English, Instrumental Music these courses are offered. Consult the Course Calendar at for full descriptions. <http://ess.hpedsb.on.ca/courses/>. Note availability of all elective courses subject to change each year.**
